

TEJESVIN S

B.E. Electronics and Communication Engineering

Krishnagiri, Tamil Nadu, India | +91 9345402909 | tejesvin367@gmail.com | [LinkedIn](#)

ABOUT ME

Motivated second-year Electronics and Communication Engineering student interested in software development and intelligent embedded systems. Building practical skills through programming and hardware-software projects, with the goal of securing a technical internship and gaining industry-relevant experience.

EDUCATION

Bachelor of Engineering (B.E.) — Electronics & Communication Engineering

Hindusthan Institute of Technology, Coimbatore, Tamil Nadu

Expected Graduation: 2029 | CGPA: 8.92 / 10

TECHNICAL SKILLS

Programming: Python, C

Embedded & IoT: Arduino, ESP32, Sensors, Embedded Systems

Tools: Arduino IDE

Core ECE: Digital Electronics, Analog Electronics, Microcontrollers, Communication Systems

PROJECTS

Smart Energy Monitoring System using Blynk IoT

- Built an IoT-based system to monitor electrical energy consumption in real time, integrating sensors with a microcontroller to measure voltage, current, power, and energy usage.
- Connected the system to the Blynk IoT platform for remote monitoring and visualization.
- Designed a mobile/web dashboard displaying live energy parameters and consumption trends.
- Enabled users to track electrical usage remotely and identify excessive energy consumption.
- Applied embedded programming, sensor interfacing, IoT communication, and real-time data monitoring.

CERTIFICATIONS

- Basics of Python — Infosys Springboard (2025)

ACHIEVEMENTS

- 2nd Prize, Science Expo — Hindusthan Institute of Technology, Coimbatore
